

REMARKS

This amendment removes multiple dependencies and reference designators from the claims, and adds a new claim that refers to independent claim 5. The amendment was not made for reasons related to patentability, and the full range of equivalents for all of the elements of the amended claims, as well as for all of the other claims, should remain intact.

A favorable consideration that results in the allowance of all of the pending claims is earnestly solicited.

Respectfully submitted:

Harry F. Smith
